

THX Series Upgrade Procedure

Note: We suggest downloading the settings from the unit before upgrade.

1. **Switch OFF** the power supply.
2. Take off the front lid and switch the battery backup off

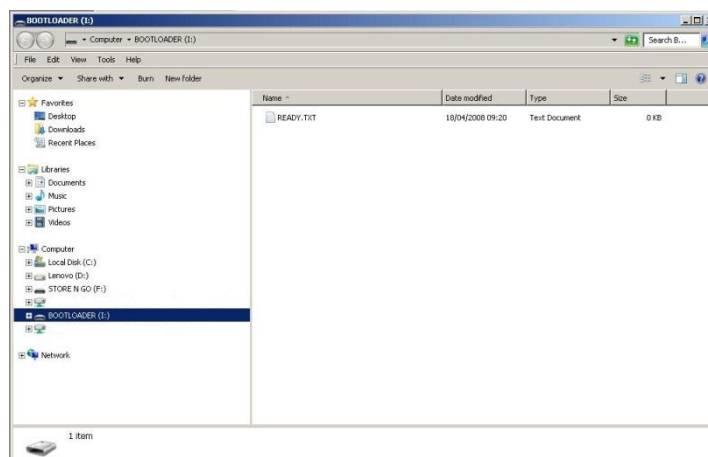

3. Put back the front lid
4. Press and hold the “OK” button.

5. Switch the power ON
6. Wait few seconds and release the button.
7. Connect the unit to PC via male-male USB cable.

8. The unit should enumerate as a “BOOTLOADER” USB Mass Storage

9. Open the “BOOTLOADER” folder and drag-n-drop the s19 file.

10. After copying file has been completed, **switch OFF** the power and disconnect the cable.

11. Take off the front lid and switch the battery backup ON

12. Close the lid and switch the power ON

Warning: Always **disconnect** power supply from the unit before opening the lid.
